

# Medialine FlexiDesk

# FlexiDesk

## Simple and userfriendly

- Cloud native application
- No installation required
- simple setup
- fully integrated into Microsoft Teams
- flexibly customizable
- easy to use without training

FLEXIDESK 

 MEDIALINE

# Why FlexiDesk?

## Features & components

- Dashboard:

In the dashboard, you can see all the relevant components at a glance. You can see which colleagues are in the office on the selected day and you can make bookings directly with the desired booking settings.

- Interactive calendar

The user can navigate between days and months and make bookings. The days marked in green indicate that the user has at least one booking on that day.

- Booking settings

In this section, the user can make or edit a booking with the required information: Location, resource and start and end time

- Reports on booked days

All bookings can be viewed in the reports. The list can be filtered by a specific day, a specific week and/or by location or resource.

# SaaS Application

All-in-One & multi-tenant

Benefits
