

Workshop AI Readiness QuickCheck

Shaping the Future: Preparing Your Business for the AI Era

The rapid advancement of Artificial Intelligence (AI) is fundamentally transforming the business landscape, offering new opportunities for efficiency and innovation. To capitalize on these benefits, businesses need to assess and enhance their AI readiness.

Our „AI Readiness QuickCheck“ workshop is designed to assess your company’s AI readiness, identify strengths and weaknesses, and develop actionable steps for integrating AI technologies.

Objective:

- **Assess AI Readiness:** Analyze the current situation at the organizational or operational level
- **Identify Strengths and Weaknesses:** Recognize areas that are already well-prepared for AI and those that require improvements
- **Strategic Planning:** Assist the company in developing plans and making decisions for integrating AI technologies
- **Practical Insights:** Demonstrate real-world applications of AI to provide a better understanding and concrete use cases

Target Audience:

- IT-Managers
- Heads of Functional and Departmental Areas
- AI Enthusiasts

Duration:

- 8 hours on-site or remote via Microsoft Teams
- 4 - 6 hours on-site or remote, plus 2 additional hours remote via Microsoft Teams

Result:

- **Assessment:** A comprehensive evaluation of the company’s AI readiness
- **Action Areas:** Identification of specific areas and actions required for the successful implementation of AI technologies

Workshop Agenda

1. Introduction to the AI Readiness Check and Its Importance:

- Overview of the process and objectives of the AI Readiness Check
- Discussion on the significance of AI readiness for the company

2. Expert Interviews on Various AI Components:

- Conducting interviews with different stakeholders within the company
- Focusing on various aspects and components of AI, such as data management, technology, personnel, and processes

3. Analysis of Interviews and Development of Recommendations:

- Analyzing the collected data and information
- Identifying strengths, weaknesses, and potential opportunities
- Developing specific recommendations for the company

4. Presentation of Results and Development of Implementation Measures:

- Presenting the results of the AI Readiness Check
- Collaboratively developing concrete measures to improve AI readiness
- Discussing next steps and responsibilities
