# Managed Client Backup

The data on your mobile devices is now always secure

**Managed Client Backup is your client safety net in the case of emergencies. Use our recovery services and activate your virtual backup center for mobile devices, all with the highest data protection standards and exclusively in our data centers in Germany.**

## Benefits

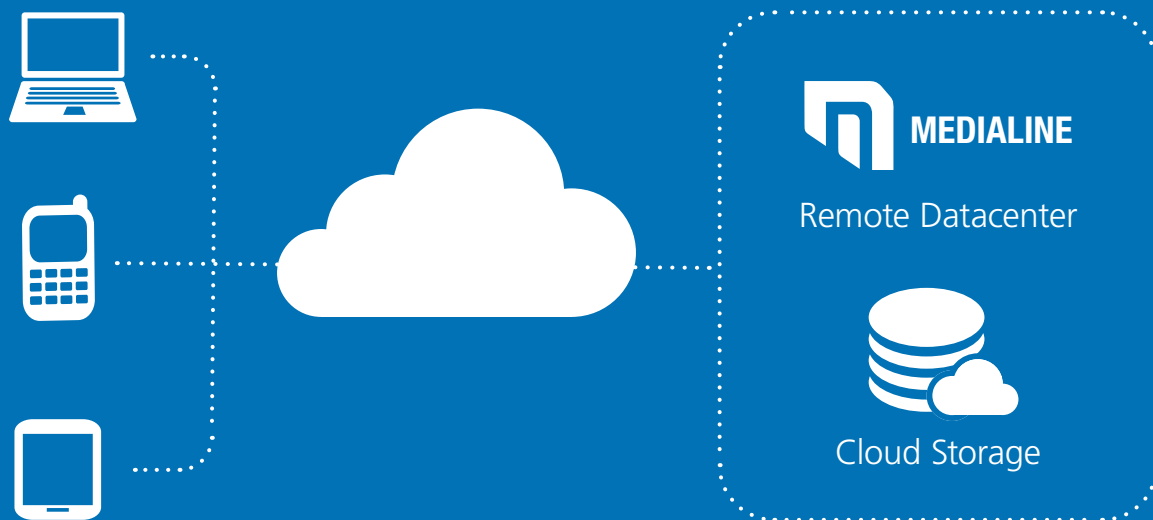

Based on Carbonite Endpoint Protection, we offer you the all-in-one solution for the security, recovery, and protection of the data on your mobile devices.

- Cross-user, global deduplication
- Protection in case of device loss or damage
- Powerful encryption
- Continuous automated backup
- Backup in local cache when operating offline
- Easy recovery
- Relief for your infrastructure“

Storage is provided as a total volume for all users. The backup is only limited by the total volume. Data that all users have in common (base image, company presentation) is stored only once = global deduplication.

Including 10GB backup storage

Additional storage = 50GB backup storage at 19€

### Prices:

Even on mobile devices, there are business-critical data that need to be backed up. Does your backup solution meet this requirement? 58% of the costs caused by theft or malfunction of devices are due to loss of data. Reduce these costs with Medialine's Managed Client Backup by securing the data on your mobile devices. By easily restoring the data, you also reduce the time it takes to set up a new device.
