

ITQ Ransomware Checkup

Enhancing Digital Resilience: ITQ Ransomware Protection Assessment for Your Business

Ransomware poses a significant threat to businesses by encrypting files and demanding ransom for decryption. The ITQ Ransomware Protection Assessment provides a comprehensive evaluation of your defenses against this perilous form of cyber threat.

Prevention and Response:

The Federal Office for Information Security (BSI) recommends specific protective measures to minimize the risk of ransomware infection. The ITQ Ransomware Protection Assessment checks compliance with these measures in an audit examination. Customers receive a final report with results and guidance on implementation.

Advantages of This Approach:

- **Cost-Effective Assessment:**
Evaluation of your own ransomware protection measures.
- **Liability Mitigation:**
Proof of compliance with due diligence.
- **Detection of Unidentified Risks:**
Early identification of potential threats.
- **Guidance for Security Measures:**
Enhancing the level of protection.
- **Measurable Outcomes:**
Clear risk assessment at the end of the examination.
- **Planned Budget Allocation:**
Allocation of IT budget based on risk assessment.

- **Objective Examination:**
Utilizing BSI recommendations for a comprehensive evaluation.
- **High-Quality Audit Report:**
Detailed report spanning approximately 30 pages.
- **Specific Recommendations for Action:**
To mitigate risks and enhance security.
- **Continuous Monitoring:**
Through the use of our Managed Services.
- **Administrator Checklist:**
A practical implementation aid.
- **Handover Meeting:**
For a joint discussion on the next steps.

Benefits:

The ITQ Ransomware Protection Assessment provides not just a comprehensive examination of protective measures but also delivers clear recommendations for sustainable and effective risk mitigation.
